

OWEN HEGARTY WINS BUSINESS LEADER AWARD

Oxiana's Managing Director and CEO has received the prestigious Business Leader Award for the Mining and Resources Sector.

Awarded by the Institute of Chartered Accountants, nominees are judged on ability to demonstrate visionary leadership, exhibit best practice, show innovation and take risks, foster positive employee relations and contribute to the community.

Receiving the award on behalf of Owen, John Nitschke EGM Australia, commented that it was Owen's 'early mover' attitude in recognising the positive environment for commodities and his ability to gain the support of the market and his staff which stood him apart.

On hearing he had received the Award, Owen commented that it was a reflection of the success of Oxiana – a company of great people, assets and culture.

"We think that with these foundations and with our merger plans with Zinifex our goal of building a truly major mining company is getting closer," he said.
