

This Charter sets out the role and responsibilities of the Board of OZ Minerals Limited (**OZ Minerals** or the **Company**¹).

1. Purpose and role

- 1.1. The Board is led by the Company's purpose of *going beyond what's possible to make lives better*.
- 1.2. The Board's role is to:
 - (a) set the Company's goals, objectives and policies;
 - (b) oversee the management of the Company;
 - (c) oversee the Company's risk management framework and effectiveness of the systems of internal control and risk management;
 - (d) review and monitor the material risks of the Company and the Company's system of internal compliance and controls;
 - (e) set an appropriate corporate governance framework for the Company and monitor compliance with the Company's values and governance framework (including establishing and observing high ethical standards and demonstrating leadership); and
 - (f) protect and optimise Company performance and build sustainable value for shareholders and all stakeholders in accordance with any duties and obligations imposed on the Board by law and the Company's Constitution and within a framework of prudent and effective controls that enable risk to be assessed and managed.
- 1.3. The OZ Minerals Board is established under the Company's Constitution.

2. Composition

- 2.1. In accordance with the Company's Constitution, the Company will have not less than three and not more than 15 Directors.
- 2.2. The Board will have a majority of independent Non-Executive Directors and comprise Directors with a broad range of skills, expertise and experience from a diverse range of backgrounds.
- 2.3. The Board will review and assess the appropriate mix of skills and diversity required on the Board and consider the extent to which these skills and diversity are represented on the Board (through, amongst other things, use of a Board skills matrix and review of Board succession plans). The Board will determine whether the composition and mix remain appropriate for the Company's strategy and cover the skills needed to address existing and emerging business and governance issues relevant to the Company.

¹ In this Charter a reference to OZ Minerals or the Company includes OZ Minerals' subsidiaries, as the context requires.

- 2.4. The Board will review Director tenure but does not believe that it should establish an arbitrary limit on tenure. Tenure is just one of the many factors that the Board takes into account when assessing the independence and ongoing contribution of a Director. In determining the composition of the Board, regard is taken to the mix of Directors with shorter and longer tenures.
- 2.5. The Board will assess the suitability of new Directors against set criteria, which include experience, ability to exercise independent judgement, professional skills, potential conflicts, overall mix of skills, experience and backgrounds represented on the Board, including gender and the requirement for independence. Appropriate checks will be undertaken before appointing a person as a Director, or putting forward to shareholders a candidate for election.

3. Board Independence

- 3.1. The Board will judge Director independence in accordance with the ASX Corporate Governance Principles and Recommendations. Accordingly, the Board considers a Director to be independent if the Director is free of any interest, position or relationship that might influence in a material respect, or reasonably be perceived to influence in a material respect, the Director's capacity to bring independent judgement to bear on issues before the Board and to act in the best interests of the Company as a whole rather than in the interests of an individual shareholder or other party.
- 3.2. Without limiting the Board's discretion, in general, a Director will not be considered to be 'independent' if he or she:
 - (a) is, or has been employed in an executive capacity by the Company or another member of the OZ Minerals Group and there has not been a period of at least three years between ceasing such employment and serving on the Board;
 - (b) receives performance-based remuneration (including options or performance rights) from, or participates in an employee incentive scheme, of the Company;
 - (c) is, or has been, within the last three years, in a material business relationship (e.g. as a supplier, professional adviser, consultant or customer) with the Company or another member of the OZ Minerals Group, or is an officer of, or otherwise associated with, someone with such a relationship;
 - (d) is, represents, or has been within the last three years an officer or employee of, or professional adviser to, a substantial shareholder of the Company;
 - (e) has close personal ties with any person who falls within any of the categories described above;
or
 - (f) has been a Director of the Company for such a period that his or her independence from management and substantial shareholders may have been compromised.
- 3.3. The Board will undertake an annual review of the extent to which each Non-Executive Director is independent, having regard to the criteria set out in clause 4.2 and any other relevant relationship that the Non-Executive Director may have.
- 3.4. Notwithstanding clause 4.2, the Board may determine that a Director is independent if the Board is of the view that the interest, position or relationship in question is not material and will not interfere with the Director's capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of the Company as a whole rather than in the interests of an individual shareholder or other party.

- 3.5. Whether the Board considers a Non-Executive Director to be independent or not, and the reasons for the Board's opinion, will be described in the corporate governance statement set out on the Company's website.
- 3.6. If at any time during the year a Director ceases or may have ceased to be independent, the Director is required to advise the Chairman immediately. Where the Board determines a Director is no longer independent, an announcement will be made to the market.
