

# Think & Act Differently

powered by **OZ**

**Think & Act Differently is a discovery-driven incubator, powered by OZ Minerals.**

TAD provides a unique approach to innovation to attract the best minds from both inside and outside the mining industry and connect dots in new and exciting ways.

Central to its success is the active participation of a network of people from across multiple industries, organisations, community groups, governments, research organisations and others who want to play a role in solving complex challenges.

The incubator will provide access to tools, skills and processes to find new, low-impact ways to mine and process minerals and create valuable opportunities for our society.

## Accelerator Programs

**Energy & Emissions**

**Scalable & Adaptable Mining**

**Clean Products**

**Waste & Water Reduction**

**Data & Technology**

## How To Become Part Of The TAD Ecosystem

We want to work with your organisation as delivery partners or ecosystem partners to take **TAD – Think & Act Differently** to the next level. You and your organisation can benefit in the following ways:

- **Framing:** Design Thinking, Problem Framing, hypothesis development, business model design.
- **Diverging:** Access to a global network of ideators, problem solvers from diverse backgrounds, crowd challenges.
- **Converging:** Team up with like-minded individuals who share the same interest and motivation as you, pitch events, shark tanks.
- **Accelerating:** funding and execution of experiments, access to commercialisation and venture partners, access to test facilities, including operational sites.
