Company Secretary and Senior Legal Counsel

## **CORPORATE GOVERNANCE STATEMENT**

This corporate governance statement sets out the key features of OZ Minerals' governance framework and reports against the Corporate Governance Principles and Recommendations (3rd edition) published by the ASX Corporate Governance Council (**ASX Principles and Recommendations**).

The Board is committed to conducting the Company's business in accordance with high standards of corporate governance and with a view to creating and delivering value for shareholders. To this end, the Board has adopted a system of internal controls, a risk management framework and corporate governance policies, standards and practices, which are designed to support and promote the responsible management and conduct of the Company.

Throughout 2018, the Company's governance arrangements were consistent with the ASX Principles and Recommendations.

In accordance with the ASX Principles and Recommendations, the Company's policies and charters referred to in this statement are available on the Corporate Governance section of the Company's website.

**This Corporate Governance Statement is current as at 26 February 2019 and has been approved by the Board of OZ Minerals.**

### **The role of the Board**

The Board is responsible for overseeing the management of the Company. The Board has adopted a Board Charter that sets out the Board's role and responsibilities, and the specific powers and responsibilities that have been delegated to the Company's Executive Management Committee (**EXCO**).

The Board is responsible for setting the Company's strategy and culture, goals and objectives, reviewing and monitoring the material risks of the Company and the Company's system of internal compliance and controls; setting an appropriate corporate governance framework for the Company; demonstrating the company behaviors and determining broad policy issues for the Company. The Board does this whilst developing goals of delivering value to shareholders by growing a quality and competitive world class modern mining company.

EXCO, led by the Managing Director and Chief Executive Officer (**MD&CEO**), is responsible for the leadership, culture and management of the Company as a whole. EXCO performs its role in consultation with, and obtains guidance from, the Board and the Board Committees. The Company has in place a set of Process Standards which specify the processes that personnel must follow and delegations they can work within, including organisation authority levels, financial approval limits and escalation requirements.

In addition to attending the regular Board and Committee meetings, the Directors allocate time for strategy and risk review sessions and for inspecting the operations of the Company. Directors receive a monthly performance report, in a format determined by the Board, from the MD&CEO and EXCO and other senior managers brief Directors regularly. Directors are expected to remain abreast of significant issues facing the Company, the industry and changes to the regulatory environment.

The Chairman communicates regularly with the MD&CEO to review strategic and operational business issues and to agree upon Board meeting agendas.

The Company Secretary, who is accountable to the Board through the Chairman, provides advice and support to the Board and is responsible for all matters to do with the proper functioning of the Board. The Head of Legal is accountable directly to the Board.

## Board composition

The Board currently comprises six Directors – one executive Director being the MD&CEO, and five Non-Executive Directors (**NEDs**). The Company’s Constitution provides for a minimum of three, and a maximum of fifteen Directors.

In considering the composition of the Board, the Board strives to ensure that it is comprised of a diverse selection of strongly performing individuals of utmost integrity whose complementary skills, experience, qualifications and personal attributes are suited to the Company’s culture and needs.

The skills, experience and expertise of each Director, including current and former directorships and length of service, are set out in more detail in the biographies in the Directors’ Report (2018 Annual Report) as well as on the Board of Directors page on the Company’s website.

In 2018, the Board continued its renewal process and appointed two new NEDs, both of whom have extensive international mining experience, positioning the Board to guide the Company into the future and align with the Company’s strategy, size and desired culture. The current female participation on the Board is 33 percent and the Board intends to have not less than 30 percent female membership on an ongoing basis.

The following board skills matrix sets out the skills, experience and diversity the Board currently has and is looking to achieve in its membership.

## Director independence

The Board has adopted and applied the independence guidelines provided in Box 2.3 of the 3rd edition of the ASX Principles and Recommendations. In accordance with these guidelines, a Director will be considered to be independent if he/she is free of any interest, position, association or relationship that might influence, or reasonably be perceived to influence, in a material respect his

or her capacity to bring an independent judgment to bear on issues before the Board and to act in the best interests of the Company and its shareholders generally.

The Board considers the materiality of a Director's interests on a case by case basis. All NEDs, including the Chairman whose role is separate to the MD&CEO, are independent and free of any relationship which may conflict with the interests of the Company.

In order to ensure that any 'interests' a Director has in a matter to be considered by the Board are known by each Director, each Director has contracted with the Company to disclose any relationships, duties or interests held that may give rise to a potential conflict. Directors are required to adhere strictly to constraints on their participation and voting in relation to any matters in which they may have an interest. Each Director is required by the Company to declare on an annual basis that they satisfy the independence criteria set out in the Board Charter and to disclose any related financial interests or details of other interests in the Company. At the beginning of each Board meeting, Directors are requested to report whether there are any conflicts that other Directors should be aware of. The Board is also guided by the OZ Minerals Conflicts of Interest Standard, which provides a framework for managing and disclosing any conflicts of interest that may arise.

### **Director selection and succession planning**

The Board regularly reviews its membership to ensure that it has the appropriate mix of diversity, skills and experience required to meet the needs of the Company. When a Board position becomes vacant or additional Directors are required, external professional advisers are engaged to assist with identifying potential candidates to ensure that a diverse range of candidates are considered.

In accordance with the ASX Listing Rules and the Company's Constitution, no Director may hold office without re-election beyond the third Annual General Meeting (**AGM**) since he or she was last elected or re-elected. Retiring Directors may offer themselves for re-election, however the Board will review and assess the performance of a retiring Director before giving a recommendation on whether a retiring Director should be re-elected.

The Company's Constitution also requires that Directors, excluding the MD&CEO, who have been appointed by the Board, must retire and stand for election at the next AGM following their appointment.

Appropriate background checks are conducted before appointing a Director or putting a candidate forward to shareholders. When candidates are put forward to shareholders for election or re-election, the Company includes in the notice of meeting all information in its possession that is material to the decision whether to elect or re-elect the candidate.

During 2018, Mr Charlie Sartain and Mr Marcelo Bastos were elected as NEDs of the Company and Dr Julie Beeby and Mr Peter Tomsett resigned as NEDs.

### **Induction and ongoing professional development opportunities**

All Directors receive a letter setting out the terms of their appointment and outlining their main responsibilities. New Directors receive a letter of appointment together with an Induction Pack that provides them with a broad range of information about the Company.

The Company has a program to educate Directors about the nature of the business, current issues, the corporate strategy and the expectations of the Company concerning the performance of Directors.

It has been the practice of Directors to visit the Company's mining operations and regularly meet with management to gain a better understanding of the business. Directors are expected to remain abreast of significant issues facing the Company and changes to the regulatory environment.

The Company also provides appropriate professional development opportunities to Directors to maintain the skills and knowledge needed to perform their role as Directors effectively.

### **Access to information and independent advice**

Directors have a right of access to all relevant Company information and to management and, subject to prior consultation with the Chairman, may seek independent advice from a suitably qualified advisor at the Company's expense.

### **Board Committees**

The standing Committees of the Board are the Audit Committee, the Sustainability Committee and the People and Remuneration Committee. The Committees assist the Board with the effective discharge of its responsibilities. The full Board addresses any matters related to nomination and Board succession.

The Committee Charters and the membership details of each Committee are available on the Company's website. Details of the number of Board and Committee meetings held during the year, each Director's attendance at those meetings and the qualifications and experience of each Director are set out in the Directors' Report (2018 Annual Report).

Each Committee is entitled to the resources and information it requires to carry out its duties, including direct access to advisers and employees. Committee papers and minutes of Committee meetings are circulated to all Directors and all Directors are welcome to attend any meeting. Each Committee reports its deliberations to the next Board meeting.

## **Performance evaluation and remuneration**

### **Evaluating Board and Committee performance**

The Board regularly monitors its performance and the performance of the Directors and Committees throughout the year and conducts a review of their performance on an annual basis. This occurs through a review process led by the Chairman and may be performed with the assistance of external advisers as considered appropriate.

For the 2017 year, a Board and Committee evaluation took place in the first quarter of 2018, which was undertaken by an external adviser and led by the Chairman of the Board. The outcomes of the review were discussed and considered by all Directors and the general conclusion was that the Board, individual Directors and Board Committees were functioning well. The Board agreed on initiatives to improve the operation and performance of the Board. Due to the significant changes to the Board and Committee composition throughout 2018, the Board deferred its 2018 Board and Committee performance evaluation until 2019.

### **Assessing EXCO performance**

The terms of employment of the MD&CEO and EXCO are set out in their employment contracts.

In accordance with clause 8.5 of its Charter, each year the Board develops and implements the criteria for assessing the performance of the MD&CEO, and EXCO. The performance evaluation process is conducted having regard to the expectations and responsibilities associated with the executive's role, as well as any relevant contractual provisions.

The performance of the MD&CEO and EXCO was reviewed and evaluated during 2018. During the year the Board established key performance indicators for the MD&CEO which reflected the challenges of the organisation. The Board reviewed the MD&CEO's performance against these performance criteria. The MD&CEO conducted performance reviews of EXCO regularly during the year, with a formal process conducted twice a year.

Further details of how the Company assesses the performance of the MD&CEO and EXCO are set out in the Remuneration Report (2018 Annual Report).

## **Remuneration**

### **Remuneration of NEDs**

The total annual remuneration paid to NEDs may not exceed the limit set by the shareholders at an AGM (currently \$2.7 million). The remuneration of the NEDs is fixed rather than variable.

In 2018, after undertaking a review of the roles and responsibilities of the Board and benchmarking its Committees and their respective fees with equivalent organisations, the Board increased the fees paid to NEDs for the first time since 2012.

Further details in relation to Director and executive remuneration are set out in the Remuneration Report (2018 Annual Report).

## **Remuneration of EXCO**

The People and Remuneration Committee provides recommendations and direction for the Company's remuneration practices. The Committee ensures that a significant proportion of each member of EXCO's remuneration is linked to his or her performance and the Company's performance. Performance reviews are conducted regularly to determine the proportion of remuneration that will be 'at risk' for the upcoming year. The Company's executives and selected personnel participate in a long-term incentive program that is linked to the Company's performance against the Company's peers in the resources industry. For further details on this refer to the Remuneration Report (2018 Annual Report).

## **Risk framework**

### **Risk identification and management**

The Board recognises that timely identification and management of opportunities and threats are fundamental to sound management and superior outcomes for the Company's stakeholders. The Company does not have a separate Risk Committee as it is a key responsibility of the Board as a whole to review and monitor the material risks of the Company and the internal processes and systems in relation to material business risks.

The Board is currently assisted by the Audit Committee in monitoring the Company's economic and financial risk and the processes and controls underlying the identification and monitoring of risks.

The Sustainability Committee assists the Board in the effective discharge of its responsibilities as they relate to sustainability primarily in the areas of safety, health, environment and community and oversight of the risks relating to those issues.

The Company's Governance and Risk Management Policy, which outlines the Company's approach to managing risks, is available on the Corporate Governance section of the Company's website.

Management is responsible for the design and implementation of risk management and internal control systems in relation to material business risks. Management ensures that procedures exist to identify, monitor and review opportunities and threats. Through observation and audit, the Board gains assurance that effective actions are being implemented to maximise the benefits from opportunities and minimise the impacts of threats.

The Company's risk framework is applied to all risk aspects of the Company's business and is used to identify, assess, evaluate, treat, monitor and communicate risks using a common methodology. The framework is aligned with ISO Standard 31000. Risks are ranked with both pre-mitigating controls and post mitigating controls and the rankings reflect the different types of likelihoods and consequences that may arise from risks, including metrics for Safety and Health, Environment, Community and Government, Reputation, Financial, Commodity Price, Production, Organisational Effectiveness, Compliance and Project Management.

The Company is exposed to numerous opportunities and threats across its business, most of which are common within the mining industry. See the Operating and Financial Review in the 2018 Directors' Report which identifies the risk areas which may affect the Company's future operating and financial performance and the Company's approach to managing them as at the date of publication.

Any material exposure to economic, environmental and social sustainability risks and how the Company manages those risks, are also disclosed in the Operating and Financial Review (see material business risks section) in the 2018 Directors' Report and discussed in the Sustainability Report within the 2018 Annual Report.

The Audit Committee reviews at least half yearly the risk framework and the systems and processes for risk management in the Company. The Board reviews Management's actions in addressing material risk regularly and reviews the Company's risk appetite and material risks at least half yearly. A review of the risk management framework took place during 2018. Risks are analysed and reported using risk registers which are common to all areas of the business and are centrally consolidated.

### **Internal control framework**

The key controls that the Company has in place to ensure that its risks are managed effectively to protect the Company's interests and ensure the integrity of its financial reporting include the following:

- robust planning and budgeting processes and systems for delivering its strategy and annual budgets with at least monthly reporting against performance targets;
- Process Standards which specify organisation authority levels, financial approval limits and escalation requirements;
- capital approval process that controls the authorisation of capital expenditure and investments;
- appropriate due diligence procedures for acquisitions and divestments; and
- regular and timely reporting on safety incidents and actions to improve safety performance.

### **Internal audit**

The Company has an internal audit function, which assures that the Company's risk management policies and procedures are complied with, controls and mitigants are adequate and that they are operating as envisaged. The internal audit function operates on the LEAN principles and, where necessary, reviews are conducted by independent internal experts or outsourced to external experts.

The internal audit function and the Audit Committee have direct access to each other and have the necessary access to management and the right to seek information and explanations. During the year, internal audit reviews were conducted in accordance with an audit plan approved by the Audit Committee. The internal audit plan is formulated following identification of key risks in the Company's operations, finance and information technology controls, compliance with applicable laws, regulations and policies, fraud prevention and detection as well as specific services as directed by the Company to ensure an effective control environment. Key findings and actions from internal audit reviews are reported to the Audit Committee.

### **MD&CEO and CFO declaration**

Prior to the Board (or its sub-committee) approving the Company's financial statements for a financial period, certifications from the MD&CEO and the CFO are provided in relation to the Company's system of risk oversight and management and compliance with internal controls in relation to financial reporting risks.

The MD&CEO and CFO certifications included declarations in accordance with section 295A of the Corporations Act 2001 (Cth) that, in their opinion, the financial records have been properly maintained and that the financial statements comply with the appropriate accounting standards and that they give a true and fair view of the financial position and performance of the Company and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

The MD&CEO and CFO declarations and assurances were supported by management certifications, which included management certifications provided by General Managers responsible for the operations and key functions.

## **Governance arrangements**

The Board and the Company's employees are expected to uphold the highest level of integrity and professional behaviour in their relationships with all of the Company's stakeholders. The Company's Code of Conduct, Policies and Standards help Directors and employees understand what is expected of them.

### *Company Policies*

OZ Minerals has nine Company policies which work synergistically to provide a clear representation of our strategic intent while providing a platform for multiple assets to work together under a global devolved organisational model. Policy documents, our Securities Trading Procedure and our Continuous Disclosure Procedure are available both internally and externally and are used to clearly articulate what we strive for to all stakeholders, partners and communities.

### *Performance Standards*

Underpinning the policies are performance standards that are grouped into four key areas. These are safety, environment, health and wellbeing, and social. They define the minimum required performance to manage sustainability opportunities and threats. These standards will be used to audit asset performance and set the standards for any new assets to achieve. They are provided to contractors and partners to outline what we expect when they work at an OZ Minerals asset. These documents are structured so that each asset, contractor or partner can use or develop their own business standards and processes to meet our standards, in keeping with our lean, devolved business model.

### *Process Standards*

OZ Minerals has revised its business process standards so that they describe, in the simplest possible way, processes or the management activities that occur across the business in a repeatable manner. They are the activities that we undertake that are unique to OZ Minerals, and they will be used by OZ Minerals' employees and assets. They define the inputs and outputs required, the processes people must follow and the delegations that they can work within.

Below is a summary of the Company's core codes and policies which apply to Directors and employees. Each of the policies below are available on the Corporate Governance section of the Company's website.

## **Code of Conduct**

The Code of Conduct describes standards for appropriate ethical and professional behavior for all Directors, employees and contractors working for the Company. The Code of Conduct, which is reviewed regularly by the Board, requires all Directors, employees and contractors to conduct business with the highest ethical standards including compliance with the law and to report any interest that may give rise to a conflict of interest. Breaches of the Code of Conduct are taken seriously by the Company and may be reported using the Company's Whistleblower Program. The Code of Conduct is made available to all employees and employees are made aware of the Code of Conduct through regular training programs. In addition to the Code of Conduct, the Company also has an Ethics and Human Rights Policy supported by the Anti-Bribery and Corruption Procedure which aims to ensure that all employees observe and comply with anti-bribery and anti-corruption laws and regulations, and a set of How We Work Together principles that everyone is expected to understand and comply with.

## **Values - How We Work Together**

The Company's How We Work Together principles and supporting behaviours underpin the unique culture that we enjoy today and into the future. These principles guide Directors and all employees in

their day-to-day dealings with each other and our stakeholders and enable growth, innovation and collaboration. The principles, which are part of our strategy, are as follows:

- Thinking and acting differently
- Building a culture of respect that enables our people to succeed
- Focusing on partnerships and collaboration, not hierarchy
- Delivering superior results through effective planning and agile deployment
- Doing what we say we will do and taking action
- Acting with integrity and engaging with our stakeholders

These principles are embedded into our core systems and processes including how we recruit and manage performance.

### **Whistleblower Program**

The Company is committed to ensuring the Company's employees and contractors can raise concerns regarding illegal conduct or malpractice in good faith without being subject to victimisation, harassment or discriminatory treatment and to have such concerns properly investigated. The Ethics and Human Rights Policy supported by the Whistleblower Standard, which is reviewed regularly, provides a mechanism by which all employees can confidentially report improper or illegal conduct without fear of discrimination. Where the complaint relates to suspected improper or illegal conduct of the MD&CEO or any other member of EXCO, the matter must be reported to the Chairman of the Board and the Chairman of the Audit Committee. Matters reported under the Whistleblower Standard that result in an investigation are monitored by the appropriate Board Committee. In addition, the People and Remuneration Committee receives a quarterly report on matters raised under the Whistleblower Standard. The Audit and Sustainability Committees receive reports on any matters which impact the relevant Committee's remit.

### **Trading in the Company's shares**

The Company has adopted a Market and Dividend Policy supported by the Securities Trading Procedure. This Procedure prohibits Directors, employees, contractors and consultants from trading in the Company's securities if they are aware of any information that is not generally available to the market and, if it were, a reasonable would expect it to have a material effect on the price or value of Company securities.

The supporting Securities Trading Procedure establishes 'black out periods' during which Directors, employees (full time, part time and casual), contractors and consultants must not trade in the Company's securities. It also prevents Directors, executives and employees from entering into any hedging arrangements over unvested securities issued pursuant to any share scheme, performance rights plan or option plan. In addition, the Securities Trading Procedure prevents participants in the Company's Long Term Incentive Plan from entering into financial arrangements such as margin loans, stock lending or any other arrangements involving the Company's securities where a lender (or other third party) is granted a right to sell (or compel the sale of) all or part of an employee's Company securities.

### **Diversity and Inclusion Policy**

The Company believes that embracing diversity, by providing fair and equal access for employees to all employment opportunities, inevitably leads to a more effective workplace. The Company's approach to achieving diversity objectives is outlined in the Diversity and Inclusion Policy. The Diversity and Inclusion Policy has a particular focus on fostering a culture that values individual differences which are leveraged to deliver optimal outcomes for OZ Minerals. This policy outlines the Company's overall commitment to establishing programs and setting measurable targets to develop a diverse workforce that is representative of the broader society and assessing annually both the targets and the Company's progress in achieving them. The Board with the assistance of the People and Remuneration Committee

oversees the implementation of programs and measurable targets which are set out in more detail below. The Company believes that diversity goes beyond gender and includes both cognitive and demographic diversity (or non-visible and visible traits).

Responsibility for our strategic approach to diversity lies with the Board through the People & Remuneration Committee. Responsibility for performance against diversity goals lies with the MD&CEO, supported by the EXCO.

The Company is focused on improving diversity for underrepresented groups and has several strategies in place to increase the level of diversity within the Company. The focus of these initiatives has been to:

- build an inclusive culture that effectively leverages the diversity of our people;
- embed the principles of diversity and inclusion into our Company values, policies and standards;
- continually review and implement actions to increase diversity and fairness;
- consider an approach to flexible work arrangements;
- demonstrate diversity in thinking relating to the management and operation of the Company; and
- ensure that the Company has required diversity in its workforce to deliver on its strategy.

**Gender Diversity at OZ Minerals**

In an industry with historically low numbers of women, the Company is also focused on improving gender diversity and has a number of strategies to increase the representation of women at every level within the Company.

The Company recognises that an important aspect of promoting gender diversity is to provide opportunities for women to move into key decision-making and leadership roles within the business. The Company provides training, development and mentoring opportunities, particularly within its middle management group, technical specialists and high potentials.

The Company offers equal remuneration for all our employees, reflective of the type of job, years of experience and the period for which employees have held their position. We annually review the earnings of our employees by gender and job band level to provide assurance that our employees’ remuneration remains equitable and in line with market trends.

**Measurable targets**

The OZ Minerals Diversity and Inclusion Policy assists in managing diversity and ensuring that diversity is integrated into business and workforce planning. The table below sets out the measurable targets for 2018 and provides details on the progress of the Company towards these targets as at 31 December 2018.

Measurable Target	Results
At least 30% of Directors on the Board are female at all times.	Target achieved.
Increase numbers of females in all bands that do not currently have a representation of at least 22 percent.	Target not fully achieved. OZ Minerals achieved overall 20.8% female participation as at the end of December 2018. Job Bands A, B, and C - 11, and the Board have greater than 20 percent female representation.

Female participation levels at all Job Bands remain well above relative industry comparators as compared to Australian Bureau of Statistics Labour Force reporting. One of the Company's key priorities is the development of a long-term diversity and inclusion plan that is aligned to the strategy and growth of the Company.

## **Aboriginal and Indigenous employment**

As part of its commitment to value creation for all stakeholders, the Company has a continuing focus on providing employment opportunities for Aboriginal and Indigenous people at its assets. There are currently approximately 140 Aboriginal people working at Prominent Hill and Carrapateena (as employees and contractors) – one of the highest representations of Aboriginal people within Australian mining workforces.

The Company runs a two-day cross-cultural awareness program for all Prominent Hill employees, including contractors. The program is run by traditional owners of the land, the Antakarinja Aboriginal group. It focuses on educating people about Aboriginal culture, particularly Antakarinja culture, including their beliefs, connection to the land and areas of cultural significance, as well as looking at challenges that persist for Aboriginal people in the workplace and society as a whole. The program has been an important part of creating an inclusive, supportive culture at Prominent Hill.

At Carrapateena, the Kokatha Aboriginal Corporation, in collaboration with the Company, is developing a cultural respect program for Company employees and contractors based at Carrapateena. This program will focus on the cultural beliefs and traditions of the Kokatha People.

The Company will continue to pursue improved gender diversity in addition to its ongoing commitment to providing employment opportunities to Aboriginal and Indigenous people. Details on progress against these commitments, in addition to detailed workforce statistics, can be found in the Company's Sustainability Report within the 2018 Annual Report.

## **Continuous disclosure**

The Company is committed to providing relevant up-to-date information to its shareholders and the broader investment community in accordance with continuous disclosure requirements under the ASX Listing Rules and the Corporations Act 2001 (Cth).

The Company has a Market and Dividend Policy supported by the Continuous Disclosure Procedure and external communication standards and procedures, which outline the processes for identifying information for disclosure. The Market and Dividend Policy and Continuous Disclosure Procedure aim to ensure that timely and accurate information is provided equally to all shareholders and market participants, consistent with the Company's commitment to its continuous disclosure obligations.

The Company has a Disclosure Committee which is responsible for ensuring there is an adequate system in place for disclosure of material information to the ASX.

The Market and Dividend Policy and the Continuous Disclosure Procedure are reviewed regularly by the Board and updates are made where considered appropriate. The Market and Dividend Policy is available on the Corporate Governance section of the Company's website.

## **Communications with shareholders**

The Company has in place an investor relations program to facilitate communication with shareholders and ensure that shareholders are provided with all information necessary to assess the performance of the Company. The Company's Market and Dividend Policy outlines the process through which the Company endeavours to ensure timely, relevant and accurate information is provided equally to all shareholders. The Market and Dividend Policy is available on the Corporate Governance section of the Company's website.

The Company has in place the following initiatives to facilitate communication with shareholders.

<sup>1</sup> Under Listing Rule 4.7.3, an entity must lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of rule 4.10.3.

<sup>2</sup> "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

<sup>3</sup> Mark whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where the entity's corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.
